

TAP INTO THE POWER OF RELAY FOR LIFE

**The American Cancer Society
Relay For Life® movement
unites communities
across the globe, to remember
those we've lost, help those
affected today, and fight
cancer head-on.
Because when we rally
together, we can accomplish
anything. All it takes is
the commitment to make
a difference.**

"A NATIONAL RELAY FOR LIFE PROGRAM HELPING TO ATTACK CHILDHOOD CANCER

The Gold Together movement was created by the positive energy of Cole Eicher, childhood brain cancer survivor and Relay For Life volunteer. His vision

started with one team in St. Petersburg, Florida. It quickly grew into over 150 Gold Together Relay For Life teams fighting together to attack childhood cancer. And there's always room for more cancer fighters on our team.

As an exciting part of the American Cancer Society's mission, Gold Together participants will directly effect change by spreading awareness, sharing support, and raising funds. Start or join a Gold Together team through Relay For Life and you'll play an active role in funding the fight against childhood cancer.
